VERIFIED COMPLAINT FOR FORFEITURE *IN REM*

Plaintiff United States of America, by its attorney, John R. Lausch, Jr., United States Attorney for the Northern District of Illinois, in accordance with Supplemental Rule G(2) of the Federal Rules of Civil Procedure for its complaint alleges as follows:

Nature of Action

1. This is an action to seize and condemn articles of food (dietary supplements), as described in the caption and Appendix A (the “Defendant Articles”), in accordance with the Federal Food, Drug, and Cosmetic Act (the “Act”), 21 U.S.C. § 301, *et seq.*
2. The Defendant Articles are located at Life Rising Corporation (“Life Rising”), 7884-7888 S. Quincy Street, Willowbrook, Illinois 60527, and consist in whole or in part of components that were shipped in interstate commerce from outside the State of Illinois.

Jurisdiction and Venue

3. Plaintiff brings this action *in rem* to condemn and forfeit the Defendant Articles. The court has subject matter jurisdiction over this action pursuant to 28 U.S.C. § 1345 and 21 U.S.C. § 334(a), which provide the court with jurisdiction over seizures brought under the Act.

4. The court has *in rem* jurisdiction over the Defendant Articles because the Defendant Articles are located in the Northern District of Illinois. Upon filing this complaint, the United States requests that the court issue an arrest warrant *in rem* pursuant to Fed. R. Civ. P. Supplemental Rule G(3)(b)(ii), which the United States will execute upon the Defendant Articles pursuant to Supplemental Rule G(3)(c).

5. Venue lies in this district because it is the district where the *res* is situated. 28 U.S.C. § 1395(b); 21 U.S.C. § 334(a). Specifically, the Defendant Articles are located in the Northern District of Illinois, at 7884-7888 S. Quincy Street, Willowbrook, Illinois 60527.

Basis for Forfeiture

6. The Defendant Articles are a food (dietary supplements) within the meaning of the Act, 21 U.S.C. § 321(ff).

7. The Defendant Articles are adulterated, after shipment in interstate commerce, within the meaning of the Act, 21 U.S.C. § 342(g)(1), in that they are dietary supplements that have been manufactured, prepared, packed, or held under conditions that do not conform to the current Good Manufacturing Practice (“cGMP”) regulations, 21 C.F.R Part 111.

8. By reason of the foregoing, the Defendant Articles are held illegally within the jurisdiction of this Court and are liable to seizure, forfeiture, and condemnation pursuant to 21 U.S.C. § 334.

Facts

9. Life Rising is a manufacturer and/or distributor of dietary supplement products bearing brand names Life Rising, Holicare, and HopeStream, among others.

10. Life Rising is located at 7884 S. Quincy Street, Willowbrook, Illinois 60527 and has additional storage and manufacturing operations at 7886 and 7888 S. Quincy Street, Willowbrook, Illinois 60527, respectively. Some Life Rising operations are conducted at Holicare LLC (“Holicare”), which locations include but are not limited to 2131 S. Archer Ave., Chicago, Illinois 60616 and 3100 Dundee Rd., Unit 402, Northbrook, Illinois 60062, all within the jurisdiction of this Court.

11. From February 28, 2019, to May 17, 2019, the U.S. Food and Drug Administration (“FDA”) conducted an inspection of Life Rising at 7884 S. Quincy St., Willowbrook, Illinois 60527. During the inspection, FDA investigators observed, among other things, numerous and continuing significant deviations from the dietary supplement cGMP regulations, many of which were similar or identical to violations noted during a prior FDA inspection of Life Rising in 2016 and in a warning letter that FDA issued to Life Rising in 2017.

12. At the end of the 2019 inspection, the FDA investigators issued a form FDA 483 (Inspectional Observations) to the quality control manager of Life Rising, notifying him of 27 objectionable conditions (“observations”). These observations are violations of the dietary supplement cGMP requirements and demonstrate that the Defendant Articles continue to be adulterated under the Act, 21 U.S.C. § 342(g)(1), because they have been manufactured, prepared, packed, or held under conditions that do conform to the cGMP regulations at 21 C.F.R. Part 111. Specifically, the violations include but are not limited to the following:

A. Failure to establish written training procedures (21 C.F.R. §§ 111.8,

111.14).

B. Failure to ensure that each person identified to perform quality control operations has distinct and separate responsibilities related to performing such operations from those responsibilities that the person otherwise has when not performing such operations (21 C.F.R. § 111.12(b)).

C. Failure to establish written procedures for pest control (21 C.F.R. § 111.23(b)).

D. Failure to assign one or more employees to supervise overall sanitation (21 C.F.R. § 111.15(k)).

E. Failure to establish and follow written procedures for maintaining, cleaning, and sanitizing, as necessary, all equipment, utensils, and any other contact surfaces that are used to manufacture, package, label, or hold components or dietary supplements (21 C.F.R. § 111.25(c)).

F. Failure to adequately document any calibration, each time the calibration is performed, for instruments and controls used in manufacturing or testing a component or dietary supplement, including by not identifying the reference standard used, the calibration method used, and the calibration reading or readings found (21 C.F.R. § 111.35(b)(3)).

G. Failure to collect and hold reserve samples of packaged and labeled dietary supplements that were distributed (21 C.F.R. § 111.83).

H. Failure to establish component specifications for identity, purity, strength, and composition for each component used to manufacture a dietary supplement (21 C.F.R. § 111.70(b)).

I. Failure to establish product specifications for the identity, purity, strength,

and composition of each finished batch of dietary supplement (21 C.F.R. § 111.70(e)). Because the company does not have such specifications, including limits on contaminants, it is impossible for the company to determine whether the specifications are met (21 C.F.R. § 111.75(c)).

J. Failure to confirm the identity of other components (i.e., non-dietary ingredients) and determine whether other applicable component specifications are met by conducting appropriate tests or examinations (21 C.F.R. § 111.75(a)(2)(i)) and because of improper reliance on a supplier's certificate of analysis (21 C.F.R. § 111.75(a)(2)(ii)) — specifically, failure to first qualify the component supplier by establishing the reliability of the supplier's certificate of analysis through confirmation of the results of the supplier's tests or examinations (21 C.F.R. § 111.75(a)(2)(ii)(A)); and because the certificate of analysis does not include a description of the tests or examination methods used, limits of the tests or examinations, and the actual results of the tests or examinations (21 C.F.R. § 111.75(a)(2)(ii)(B)).

K. Failure to establish and follow written procedures for quality control operations, including written procedures for conducting a material review and making a disposition decision (21 C.F.R. § 111.103).

L. Failure to establish and follow a master manufacturing record for each unique formulation of dietary supplement manufactured, and for each batch size, that contains all required information and meets the requirements to ensure uniformity in the finished batch and from batch to batch (21 C.F.R. §§ 111.205, 111.210).

M. Failure to prepare a batch production record for each batch of dietary supplement that includes all required information and documentation (21 C.F.R. §§ 111.255, 111.260).

N. Failure to clearly identify, hold, and control, under a quarantine system for

appropriate disposition, packaged and labeled dietary supplement rejected for distribution (21 C.F.R. § 425).

O. Failure to determine whether the finished, packaged and labeled, dietary supplement conforms to specification established in accordance with 21 C.F.R. § 111.70(g) (21 C.F.R. § 111.127(d)).

13. On May 17, 2019, pursuant to its authority under the Act, 21 U.S.C. § 334(h)(1), FDA inventoried and placed under administrative detention at Life Rising Corporation, 7884-7888 S. Quincy St., Willowbrook, Illinois 60527, the products listed on Appendix A. Pursuant to 21 U.S.C. § 334(h)(2), the administrative detention cannot exceed 30 days. Consequently, the seizure sought in this action is necessary to ensure that the adulterated Defendant Articles are not further distributed.

Claim for Relief

14. The United States incorporates by reference paragraphs 1 through 13 as if fully set forth in this paragraph.

15. Under 21 U.S.C. § 342(g)(1), a dietary supplement is adulterated if it has been prepared, packed, or held under conditions that do not conform to the cGMP regulations.

16. The Defendant Articles, food (dietary supplements), are adulterated within the meaning of 21 U.S.C. § 342(g)(1).

17. By reason of the foregoing, the Defendant Articles are held illegally within the jurisdiction of this Court and are liable to seizure and condemnation pursuant to 21 U.S.C. § 334.

WHEREFORE, Plaintiff United States of America prays that:

(a) a warrant issue for the arrest and seizure of the Defendant Articles;

- (b) notice of this action be given to all persons who reasonably appear to be potential claimants of the Defendant Articles;
- (c) the Defendant Articles of food (dietary supplements) be condemned and forfeited to the United States of America;
- (d) the Defendant Articles of food (dietary supplements), be disposed of pursuant to the provisions of the Act;
- (e) Plaintiff be awarded its costs and disbursements in this action; and
- (f) Plaintiff be granted such other and further relief that the court deems just and proper.

Dated: June 10, 2019

Respectfully submitted,

JOHN R. LAUSCH, Jr.
United States Attorney

By: s/ Ernest Y. Ling
